

Keel Marine is a long established International Maritime Consultancy with experienced Naval Architects, Marine Engineers and Surveyors who are able to undertake all types of Marine Design, Survey and Supervision along with the provision of expert independent advice.

Keel Marine offers services in Ship and Boat Design, Marine Survey, Vessel Stability and Project Management as well as Supervision of Ship Building, Repair, Conversion and Life Extension Programs.

With more than 50 years in the Marine and Offshore Industries, Keel Marine's experience as Naval Architects and Marine Engineers has led to extensive specialist knowledge in a number of areas including High Speed Craft, Research Vessels, Pollution Control Craft, Inland Waterways, Work Boats, LNG Ships, Naval Vessels and Offshore Support Vessels.

- **Technical Services** Delivering comprehensive support to the Marine Industry from Concept to Commissioning, and beyond.
- **Ships** Large Ship Design from Concept, through Plan Approval and New Build Supervision to Survey, Repair and Conversion Programs.
- **Workboats & Small Craft** Experience in designing across the spectrum of Workboats, from Seagoing Tugs to Inland Waterway Craft and RIB's.
- **Specialisations** Expertise in Marine Specialisations including Offshore Marine, Ship to Shore Linking Solutions, Pontoons and Marine Civil Engineering Projects.
